NOTE.—Wholesalers trading only in exempt goods do not supply returns. Considerable numbers of commodities were exempt from tax in July, 1931, September, 1932, October, 1933, August, 1934, October, 1935, and September, 1936. Consequently the proportion of wholesale trade covered by the records has been progressively reduced.

The amount of sales for individual months includes some sales effected in previous months.

\* Tax collected mainly upon sales in the month shown, but actually received in the following month. The rate of tax was 2½% from 1st August, 1930, 6% from 11th July, 1931, 5% from 26th October, 1933, and 4% from 11th September, 1936.

NOTE.—This index represents the ratio of monthly clearings to the average for the months concerned during the five years 1926-1930. Seasonal fluctuations are, therefore, virtually eliminated. The trend has been smoothed out by taking a three months moving average. The index is adjusted to eliminate the effects of Treasury Bills and other special transactions on behalf of Governments, and the effects of bank amalgamations. No allowance has been made for normal growth or change of price levels.

§ Index not ascertainable on account of suspension of State Government banking transactions.

\* Census of 30th June.

The indexes have been adjusted to allow for an estimated increase of 1·2 per cent. per annum in the number of persons dependent on employment, but no adjustment is made for seasonal variation. At the Census, 15,142 persons dependent on employment returned themselves as unemployed by reason of illness, accident, etc., or "voluntarily." This number, representing 1·8 per cent. of all persons dependent on employment, is excluded from the above indexes, which relate to percentages of available wage earners employed and unemployed.

The approximate number of persons in private employment was 478,000 in June, 1933, 519,000 in June, 1934, 567,000 in June, 1935, and 614,000 in June, 1936, and 628,000 in September, 1936.

NOTE.—Current Living Wage rates of State Tribunals in other States in November 1936, were:—Brisbane, 74s. Adelaide, 66s.; Perth, 73s. 9d. In Melbourne and Hobart the Federal basic rates (as shown in footnote to Table 57) are usually applied.

The rates in the other capital cities from 1st December, 1936, were:—Melbourne, 69s.; Brisbane, 66s.; Adelaide 69s.; Perth, 71s.; Hobart, 69s.

NOTE.—The Commonwealth Court of Conciliation and Arbitration uses the Harvester Wage (42s. in 1907) as the basis of its awards. The foregoing rates up to February 1, 1934, inclusive, represent this wage adjusted by retail price index numbers, plus the "Powers' 3s." From February 1, 1931, to February 1, 1934, the adjusted rates were reduced by 10 per cent. by order of the Court. This reduction has been applied in calculating the rates shown above.

As from 1st May, 1934, the Court determined new basic rates without the addition of the "Powers' 3s." and rescinded the 10 per cent. reduction of wages. It decided that these rates are subject to adjustment at quarterly intervals from 1st June, 1934, but will not be varied unless the adjustment amounts to 2s. or more.

§ Figures for 1931 and 1935 exclude articles posted or messages telegraphed in other states of Australia and received in New South Wales. On this account the figures cannot be compared with those for earlier years.

Note—The exports in 1921, 1931 and 1935 include articles produced in other States of Australia. Since 1st January 1912, the Commonwealth Customs Department has classified all goods produced in the Commonwealth simply as "Australian," without distinguishing, as formerly, the particular State where they were produced.
